NET

Music: Calvino

Lyrics: Adelino, Calvino and Gercina

Thread that wraps around thread that embraces another thread to weave a net.

A net that takes the word and brings us all its colors with love so that we can learn.

People of all colors, of all pains, bring us back to life

With their eyes on the world, never fearing, they only make us grow

I took this net from the sea

Throw this net into the air

Lay this net on the ground to see the seed sprout and grow

Let the seed bring the magic of the flower.

Let these suffering people harvest this flower.

Rediscover warmth

Reinvent living

Recultivate this soil with otherness and never forget.

I took this net from the sea

Throw this net into the air

Lay this net on the ground to see the seed sprout and grow

I took this net from the sea

Throw this net in the air

Let us live with love and always grow.

I took this net from the sea

Throw this net in the air

I took this net from the sea

Throw this net in the air
